+ Work Experience

Self Employed | Vezeign LLC (November 2009 - Present)

"At Vezeign LLC we take web design very seriously, but we've learned it takes much more than that to make a great website. A website, especially for business purposes, needs to be custom tailored not only for our clients, but for our clients customers. That is why we take your marketing, business, and sales goals seriously. We get to know understand your business needs, and make a website that is designed especially for you."

- In charge of all sales.
- Manage all Clients
- Design and management of site is all managed by me personally.

Designing Digitally Inc (July 2009 - November 2009)

Web Design and Graphic Design position. In charge of web site development and server implementation. Developed sites on Wordpress CMS & Drupal. Hand coded site designs and worked to implement them into content management systems. Worked directly with clients to help them achieve their web sites goals.

Johnson & Johnson - Ethicon Endo-Surgery | Kelly Services (Oct 2008 - April 2009)

Part of a team in the Enterprise Marketing department tasked with developing a content management solution to reform communication and organization of questions and answers about the company's products and solutions. Entailed finding proper solutions to both technical and project related development, moving from older Content Management Systems (eRoom) to an updated system (Sharepoint).

Johnson & Johnson - Ethicon Endo-Surgery | Kelly Services (February 2008 - August 2008)
